Technologies

Languages: Java, Python, C++, C, JavaScript, TypeScript, SQL, HTML, CSS
DevOps: Jenkins, Terraform, Docker, Kubernetes, Git, GitHub
Database: MongoDB, PostgreSQL, Prisma ORM, OAuth
Libraries and Frameworks: Reactjs/Nextjs, Nodejs, ExpressJS, TailWind CSS, BootStrap

Experience

DevOps-AI Intern, DBS Tech India – Remote　　　　　　　　　　　　　　Jun 2025 – Present
- Gaining hands-on experience in CI/CD pipelines, version control (Git), and automated testing to streamline software delivery.
- Assisting with cloud infrastructure provisioning and deployment using tools like Docker, Kubernetes, and Terraform.

Technical Content Writer, Mynimalistic – Remote　　　　　　　　　　　　Oct 2024 – Dec 2024
- Developed and launched a targeted content campaign in conjunction with the marketing and social media teams, leading to a 35% increase in website traffic.
- Produced high-impact SEO-optimized content for blogs, social media and digital marketing, increasing engagement and brand visibility on Instagram 66%.
- Collaborated with marketing and social media teams to design and execute content for campaigns, improving campaign effectiveness and audience engagement.

Projects

FocusFlow　　　　　　　　　　　　　　　　　　　　　　　　*GitHub* ↗　*Live Link* ↗
- Developed a responsive productivity web app using React, Tailwind CSS, and Supabase.
- Implemented a habit tracker, Pomodoro timer, and analytics dashboard for students to manage study habits and time effectively.
- Integrated secure back-end services with authentication, session management, and profile handling.

PixelMind: AI Image Generator　　　　　　　　　　　　　　　　*GitHub* ↗　*Live Link* ↗
- Developed a responsive website that allows users to create unique images simply by providing descriptive text prompts.
- Implemented secure user authentication via OAuth for user-specific image generation history.
- Used Prisma ORM and PostgreSQL to manage and store user data and generation metadata efficiently.

MastFood　　　　　　　　　　　　　　　　　　　　　　　　　*GitHub* ↗　*Live Link* ↗
- Developed and implemented responsive, user-friendly UI for a food delivery web app using NextJs
- Worked with UX/UI design principles to create an intuitive interface, improving the user experience
- Ensured cross-browser compatibility and mobile responsiveness across various devices and screen sizes.
